## EXPERIENCE

- **Twigz Technologies Pvt. Ltd** Remote  
*Software Engineer (Trainee)*  
*Sep 2023 - Present*
  - I have extensive experience in building interactive and responsive web applications using React.js and JavaScript. I successfully developed a front-end web application using React.js that effectively addressed a specific problem.
- **A2it Online** Remote  
*Frontend Developer (Intern)*  
*Jan 2023 - Jun 2023*
  - To enhance the user experience, I integrated Redux, Axios, and React Router into the project, resulting in a remarkable 10% improvement in usability based on thorough usability tests.
  - Additionally, I created a new application with a focus on optimizing performance and scalability. By incorporating the best practices I learned during development, the application achieved higher efficiency and better scalability.
- **Connecting Points Tech** Remote  
*Software Developer (Trainee)*  
*Jun 2022 - Sep 2022*
  - Used multiple libraries like React, Redux, AntDesign and Tailwind to build a scalable banking project.
